

# PRU Workshop at GeorgiaTech by Jason Kridner January 2020

Pierrick Rauby

Updated February 20, 2020

## Contents

<b>1</b>	<b>Introduction</b>	<b>2</b>
<b>2</b>	<b>Hardware presentation</b>	<b>2</b>
<b>3</b>	<b>Connection to Beaglebone Pocket</b>	<b>2</b>
3.1	SSH to the board . . . . .	2
3.2	Freeing memory on the SD card . . . . .	2
3.3	Internet sharing . . . . .	2
3.3.1	From Mac . . . . .	2
3.3.2	From Linux . . . . .	2
3.3.3	From Windows . . . . .	2
<b>4</b>	<b>TechLab examples</b>	<b>2</b>
4.1	The Makefile . . . . .	2
4.2	PRU sleep example . . . . .	2
4.3	PRU rgb example . . . . .	2
4.4	Add other example from the video . . . . .	2
<b>5</b>	<b>PRU ADC example</b>	<b>2</b>
<b>6</b>	<b>Other notes</b>	<b>2</b>
<b>7</b>	<b>Conclusion</b>	<b>2</b>

- 1 Introduction
- 2 Hardware presentation
- 3 Connection to Beaglebone Pocket
  - 3.1 SSH to the board
  - 3.2 Freeing memory on the SD card
  - 3.3 Internet sharing
    - 3.3.1 From Mac
    - 3.3.2 From Linux
    - 3.3.3 From Windows
- 4 TechLab examples
  - 4.1 The Makefile
  - 4.2 PRU sleep example
  - 4.3 PRU rgb example
  - 4.4 Add other example from the video
- 5 PRU ADC example
- 6 Other notes
- 7 Conclusion
